Configuring the Talkbox

Step 1: Open the TalkBox Configurator

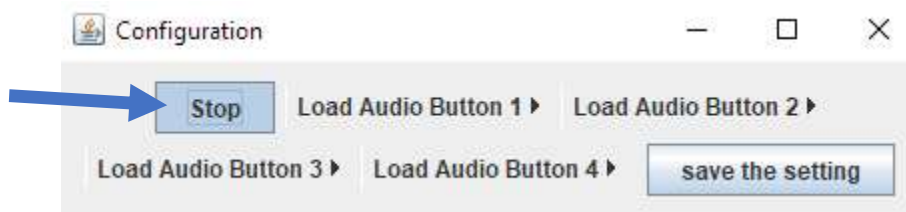

Step 2: Enter the Configuration mode

Step 3: Recording Audio to load onto each Button

    a. Press the record button

    b. Record your voice! When you're finished, hit the stop button

c. Load your most recently recorded audio by pressing on one of the *Load Audio Buttons*

Step 4 (optional): Repeat Step 3 to load different recordings onto each of the buttons.

Step 5: Save all your recordings by clicking on the *save the setting* button
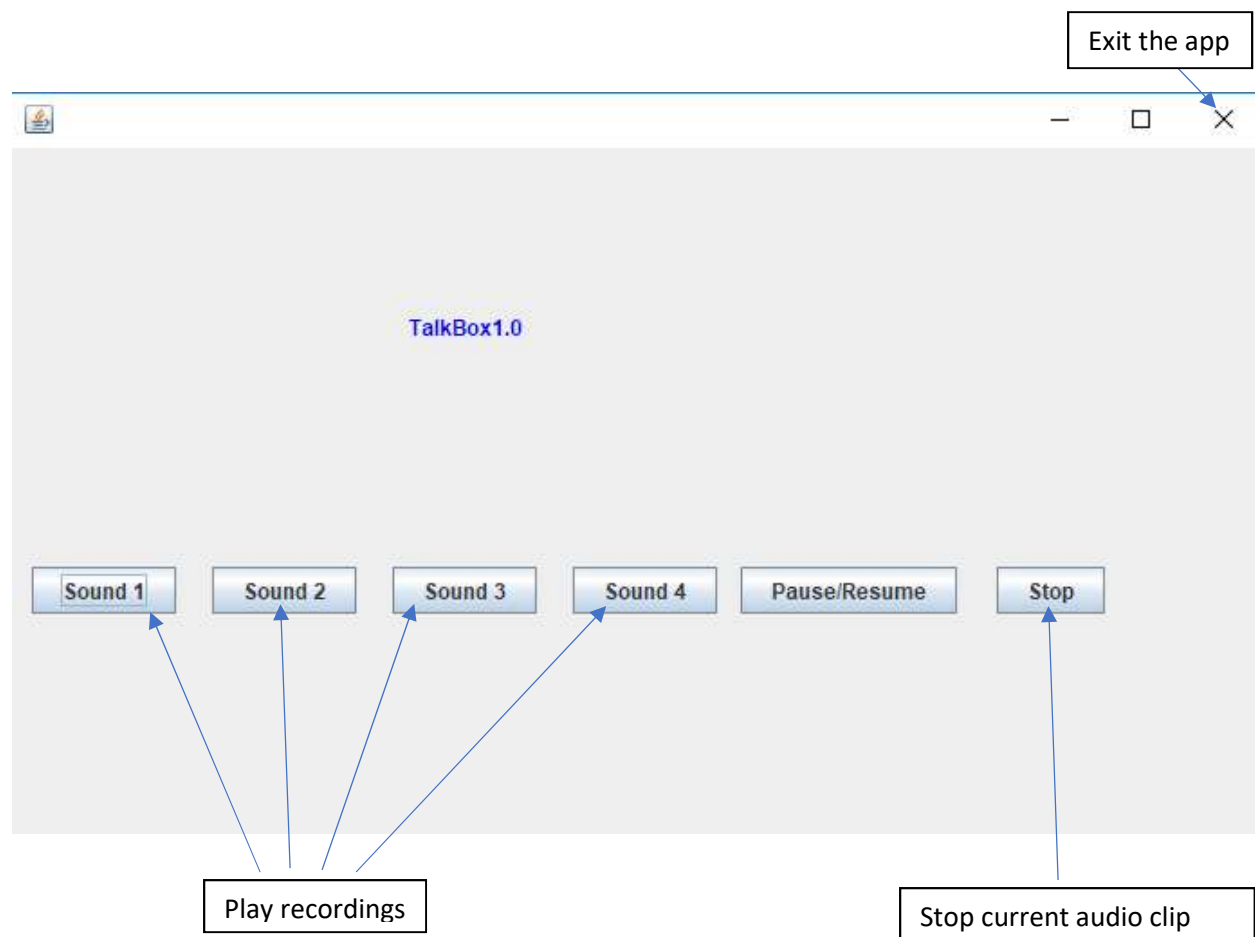

Using the Talkbox

There are two options when testing your recordings:

1. Recordings can be tested using the *Talkbox Simulator*
2. Recordings can be loaded onto a physical Talkbox Device

Using the Talkbox Simulator

Exit the app

TalkBox1.0

Sound 1   Sound 2   Sound 3   Sound 4   Pause/Resume   Stop

Play recordings

Stop current audio clip

Best Use Cases

Users of the TalkBox should set up a number of configurations for different situations. Some common uses are:

Introductions

"Hi, my name is _____"	"Nice to meet you!"	"What's your name?"	"Hello!"

Emotions

"Happy"	"Sad"	"Angry"	"Neutral"

Weather

"The weather is…"	"Sunny"	"Raining"	"Cloudy"
